Chandigarh, India

Summary

Hi there! My name is Suraj, and I am a passionate tech enthusiast with a Bachelor's degree in Computer Applications and pursuing my Master's in Computer Applications from Chandigarh University. With a keen interest in software engineering, I am constantly striving to enhance my coding skills and have expertise in HTML, CSS, JavaScript, Bootstrap, jQuery, SASS, and various other frameworks.

I am a versatile professional with experience in Digital Marketing as well, and during the pandemic, I honed my skills in this field, becoming a full-time Digital Marketer. However, my passion for coding always remained strong, and I am determined to follow it as a career.

I am now seeking opportunities to work with renowned tech companies like FAANG, where I can leverage my skills to contribute to innovative and challenging projects. With my technical knowledge and a can-do attitude, I am confident that I can make a valuable addition to any team.

Thank you for taking the time to read my bio. I would be delighted to connect and explore any potential opportunities that align with my career aspirations.
